INTERNATIONAL IMMERSION - DUBAI EDITION

MIMA Institute of Management organized International Immersion Program to Dubai wherein students had the privilege of interacting with industry experts to deepen understanding of international business dynamics. The seven-day program included interactive industry visits and university sessions by reputed organizations viz.

1. DTEC – Experts at DTEC explained the company's business model which focuses largely on supporting tech-facing startups. The students learnt about various successful startups who were assisted by DTEC in networking, legal guidance, office space acquisition.

2. DHL – As one of the world's leading logistics companies, visit to DHL provided students with an effective takeaway about dynamics of the logistics world. The session by senior company officers shed light on how the company manages global shipments to ensure timely deliveries while elaborating role of technology and sustainability to stay competitive

3. DIFC – The visit to DIFC was helpful for students to understand company's role as a major hub for both of banking and finance in Dubai. The officials of the company highlighted how it connects businesses from all around the world and supports in areas like law, trade, finance.

4. Synergy University, Dubai – The International Immersion Program concluded with two-day certification session at Synergy University, Dubai. Sessions were conducted by veteran faculty members on 'The Importance of Sustainability in Business Practices'. It helped students gain new perspectives about importance of ethics and sustainable business development.

5. Usky, Dubai – As part of the International Immersion Program, students visited Usky Transport, a pioneer in innovative and sustainable urban mobility solutions. The visit offered an in-depth understanding of the company's cutting-edge suspended transport technology and its potential to transform urban commuting. Students explored integration of advanced engineering, environmental responsibility, and future-ready infrastructure, gaining valuable insights into how sustainable transport can reshape cities and improve quality of life.

From Learning to Leisure: Students Discover Dubai's Wonders

Alongwith valuable global exposure through academic and cultural interactions, the trip also facilitated students to experience vibrant charm of the city. Students enjoyed serene beauty of Dubai Beach, its breathtaking coastline, and marveled at the architectural wonders of the Burj Khalifa, Dubai Frame, and Museum of the Future, which offered stunning panoramic views of the city's past, present, and future. Students also enjoyed the delightful cruise ride, enjoying Dubai's glittering skyline from water, creating unforgettable moments. The visit perfectly blended learning with leisure, leaving students with cherished memories and deeper appreciation of international culture.

Celebrating Academic Excellence: Dr. Monika Chhabra Awarded Doctorate for Groundbreaking Research in Education

We are proud to congratulate Dr. Monika Chhabra, Founder Principal of MIS International School, Balewadi, on being awarded Ph.D. (Doctor of Philosophy) from MIT-WPU. This remarkable achievement is the result of her over four years rigorous research on the impact of Project-Based Learning (PBL) in Mathematics on secondary school students.

Dr. Chhabra's research revealed significantly positive outcomes in students' learning, affirming that PBL not only enhances understanding but also aligns perfectly with the objectives of the National Education Policy (NEP) 2020. Her work offers valuable direction to educators and policymakers, encouraging adoption of student-centered pedagogies to unlock students' fullest potential. Congratulations Dr. Monika Chhabra on this well-deserved honor.

Dr. AB's Podium - Episode 18 - Your Mind Matters - Starting the conversation with Dr. Pranavjeet Kaldate

In this episode, we feature an enlightening conversation with Dr. Pranavjeet Kaldate, Founder of Curamind Studios, Balewadi, Pune. Dr. Kaldate is a highly experienced Consultant Psychiatrist, with extensive expertise in Psychiatry, Psychotherapy, Mental Health Counseling, and Healthcare Management, having served in reputed hospitals.

The discussion delves into the emotional and psychological challenges that children and teenagers encounter at different stages of growth. Dr. Kaldate shares valuable insights on recognizing early warning signs, fostering resilience, and providing the right support through school pressures, social media influence, and major life transitions.
